CONTENTS VOLUME 82 JUNE 1986

page 1 CARRARO, L., LOMBARDO, G. and GEROLA, F. M. Stylar peroxidase and incompatibility reactions in *Petunia hybrida*

11 KALLAJOKI, M., VIRTANEN, I. and SUOMINEN, J. Surface glycoproteins of human spermatozoa

23 RIOU, J.-F., DARRIBÈRE, T. and BOUCAUT, J.-C. Cell surface glycoproteins change during gastrulation in *Pleurodeles waltlii*

41 EUROPE-FINNER, G. N. and NEWELL, P. C. Inositol 1,4,5-trisphosphate and calcium stimulate actin polymerization in *Dictyostelium discoideum*

53 DELTOUR, R., MOSEN, H. and BRONCHART, R. Three-dimensional electron microscopy of the internal nucleolus-associated chromatin and of the nucleolar vacuoles during early germination of *Sinapis alba*

73 TUAN, R. S., CARSON, M. J., JOZEFIAK, J. A., KNOWLES, K. A. and SHOTWELL, B. A. Calcium-transport function of the chick embryonic chorioallantoic membrane. I. *In vivo* and *in vitro* characterization

85 TUAN, R. S., CARSON, M. J., JOZEFIAK, J. A., KNOWLES, K. A. and SHOTWELL, B. A. Calcium-transport function of the chick embryonic chorioallantoic membrane. II. Functional involvement of calcium-binding protein, Ca^{2+}-ATPase and carbonic anhydrase

99 JOHNSON, K. E. Transplantation studies to investigate mesoderm–ectoderm adhesive cell interactions during gastrulation

119 GOLDSTEIN, P. The synaptonemal complexes of *Caenorhabditis elegans*: pachytene karyotype analysis of hermaphrodites from the recessive *him*-5 and *him*-7 mutants

129 KELLIE, S., PATEL, B., MITCHELL, A., CRITCHLEY, D. R., WIGGLESWORTH, N. M. and WYKE, J. A. Comparison of the relative importance of tyrosine-specific vinculin phosphorylation and the loss of surface-associated fibronectin in the morphology of cells transformed by Rous sarcoma virus

143 KUBOTA, T. Surface contraction of dividing newt eggs induced by lowering the external ionic strength or pH, or by trypsinization

155 FRASCH, M., GLOVER, D. M. and SAUMWEBER, H. Nuclear antigens follow different pathways into daughter nuclei during mitosis in early *Drosophila* embryos

173 O'FARRELL, M. K. and DIXON, C. Biosynthesis of nuclear proteins after stimulation of quiescent Swiss mouse 3T3 cells

187 BOLWELL, G. P. Significance of a common epitope of plant and animal endomembranes

203 GAUDE, T. and DUMAS, C. Organization of stigma surface components in *Brassica*: a cytochemical study

217 UEDA, K. and NOGUCHI, T. Structure of dictyosomes in *Scenedesmus acuminatus* observed by the freeze-substitution method

223 KITAMURA, A., SUGAI, T. and KITAMURA, Y. Homotypic pair formation during conjugation in *Tetrahymena thermophila*

235 SVITKINA, T. M., NEYFAKH, A. A. and BERSHADSKY, A. D. Actin cytoskeleton of spread fibroblasts appears to assemble at the cell edges

249 HASTON, W. S. and SHIELDS, J. M. Signal transduction in human neutrophil leucocytes: effects of external Na^+ and Ca^{2+} on cell polarity

263 CLARK, R. A. F., FOLKVORD, J. M. and NIELSEN, L. D. Either exogenous or endogenous fibronectin can promote adherence of human endothelial cells

281 EHRLICH, H. P., BORLAND, K. M., MUFFLY, K. E. and HALL, P. F. Contraction of collagen lattice by peritubular cells from rat testis

295 SAXENA, N. K., SAXENA, N., HUNT, W., PETERSON, R. N., HENRY, L. and RUSSELL, L. D. Increase in the concentration of major boar sperm surface proteins during maturation in the epididymis

309 GOSS, S. J. Characterization of cystathionine synthase as a selectable, liver-specific trait in rat hepatomas

INDEX OF AUTHORS

BERSHADSKY, A. D. 235
BOLWELL, G. P. 187
BORLAND, K. M. 281
BRONCHART, R. 53
BOUCAUT, J.-C. 23

CARRARO, L. 1
CARSON, M. J. 73, 85
CLARK, R. A. F. 263
CRITCHLEY, D. R. 129

DARRIBÈRE, T. 23
DELTOUR, R. 53
DIXON, C. 173
DUMAS, C. 203

EHRLICH, H. P. 281
EUROPE-FINNER, G. N. 41

FOLKVORD, J. M. 263
FRASCH, M. 155

GAUDE, T. 203
GEROLA, F. M. 1
GLOVER, D. M. 155
GOLDSTEIN, P. 119
GOSS, S. J. 309

HALL, P. F. 281
HASTON, W. S. 249
HENRY, L. 295
HUNT, W. 295

JOHNSON, K. E. 99
JOZEFIAK, J. A. 73, 85

KALLAJOKI, M. 11
KELLIE, S. 129
KITAMURA, A. 223
KITAMURA, Y. 223
KNOWLES, K. A. 73, 85
KUBOTA, T. 143

LOMBARDO, G. 1

MITCHELL, A. M. 129
MOSEN, H. 53
MUFFLY, K. E. 281

NEWELL, P. C. 41
NEYFAKH, A. A. 235
NIELSEN, L. D. 263
NOGUCHI, T. 217

O'FARRELL, M. K. 173

PATEL, B. 129
PETERSON, R. N. 295

RIOU, J.-F. 23
RUSSELL, L. D. 295

SAUMWEBER, H. 155
SAXENA, N. 295
SAXENA, N. K. 295
SHIELDS, J. M. 249

SUGAI, T. 223
SUOMINEN, J. 11
SVITKINA, T. M. 235

TUAN, R. S. 73, 85

UEDA, K. 217

VIRTANEN, I. 11

WIGGLESWORTH, N. M. 129
WYKE, J. A. 129

INDEX OF SUBJECTS

Actin cytoskeleton
of fibroblasts assemble at cell edges: SVITKINA, NEYFAKH & BERSHADSKY 235
Actin filaments
role in contraction of collagen lattice by rat testes peritubular cells: EHRLICH, BORLAND, MUFFLY & HALL 281
Adherence
of human endothelial cells promoted by fibronectin: CLARK, FOLKVORD & NIELSEN 263
Adhesion
mesoderm–ectoderm interactions during gastrulation: JOHNSON 99
Amphibian
surface glycoproteins change during gastrulation: RIOU, DARRIBÈRE & BOUCAUT 23
Amphibian eggs
dividing, induction of surface contraction: KUBOTA 143

Boar sperm
increase in surface protein during maturation in epididymis: SAXENA, SAXENA, HUNT, PETERSON, HENRY & RUSSELL 295
Brassica
organization of stigma surface components: GAUDE & DUMAS 203

Caenorhabditis elegans
synaptonemal complex: GOLDSTEIN 119
Calcium
stimulates actin polymerization in *Dictyostelium discoideum*: EUROPE-FINNER & NEWELL 41
Calcium transport
in chick embryonic chorioallantoic membrane: TUAN, CARSON, JOZEFIAK, KNOWLES & SHOTWELL I, II 73, 85
Cell polarity
effects of Na^+ and Ca^{2+}, in human neutrophyl leucocytes: HASTON & SHIELDS 249
Cell proliferation
of stimulated quiescent Swiss 3T3 cells: O'FARRELL & DIXON 173
Cell surface
glycoproteins of human spermatozoa: KALLAJOKI, VIRTANEN & SUOMINEN 11
Cell surface interactions
in *Tetrahymena* during conjugation: KITAMURA, SUGAI & KITAMURA 223
Chemotaxis
in *Dictyostelium discoideum*: EUROPE-FINNER & NEWELL 41
Collagen lattice
contraction by peritubular cells from rat testes: EHRLICH, BORLAND, MUFFLY & HALL 281
Cystathionine synthase
as liver-specific trait in rat hepatoma: GOSS 309

Detergent resistance
components of surface glycoproteins of human sperm: KALLAJOKI, VIRTANEN & SUOMINEN 11
Dictyosomes
in *Scenedesmus acuminatus*, structure: UEDA & NOGUCHI 217
Dictyostelium
actin polymerization stimulated by IP_3 and calcium: EUROPE-FINNER & NEWELL 41
Differentiation
in rat hepatoma, synthesis of nutrients: GOSS 309
Drosophila
embryos, nuclear antigens during mitosis: FRASCH, GLOVER & SAUMWEBER 155

Embryonic development
of chick chorioallantoic membrane, Ca transport: TUAN, CARSON, JOZEFIAK, KNOWLES & SHOTWELL I 73
Endocytosis
in Ca transport in chick embryonic membranes: TUAN, CARSON, JOZEFIAK, KNOWLES & SHOTWELL II 85
Endomembranes
of plants and animals, a common epitope: BOLWELL 187
Endothelial cells
adherence promoted by exogenous or endogenous fibronectin: CLARK, FOLKVORD & NIELSEN 263
Epididymis
maturation in, boar sperm surface proteins increase: SAXENA, SAXENA, HUNT, PETERSON, HENRY & RUSSELL 295
Epitope
common to plant and animal endomembranes: BOLWELL 187

Fibroblasts
actin cytoskeleton at cell edges: SVITKINA, NEYFAKH & BERSHADSKY 235
Fibronectin
promotes adherence of human endothelial cells: CLARK, FOLKVORD & NIELSEN 263
Freeze-substitution
in study of dictyosome structure in *Scenedesmus*: UEDA & NOGUCHI 217

Gametophytic self-incompatibility
of *Petunia*: CARRARO, LOMBARDO & GEROLA 1
Gastrulation
in *Pleurodeles*, cell surface glycoproteins: RIOU, DARRIBÈRE & BOUCAUT 23
mesoderm–ectoderm adhesive cell interactions: JOHNSON 99
Germination
of *Sinapis alba*, nucleolar chromatin and vacuoles: DELTOUR, MOSEN & BRONCHART 53
Glycoproteins
of cell surface change during gastrulation in *Pleurodeles*: RIOU, DARRIBÈRE & BOUCAUT 23
surface, of human spermatozoa: KALLAJOKI, VIRTANEN & SUOMINEN 11
Golgi bodies
in *Scenedesmus acuminatus* studied by freeze-substitution: UEDA & NOGUCHI 217
Growth stimulation
of quiescent Swiss 3T3 cells: O'FARRELL & DIXON 173

Hepatoma
rat, cystathionine synthase: GOSS 309
Homocysteine
source of cysteine-sulphur in rat hepatoma: GOSS 309
Homotypic pair formation
during conjugation in *Tetrahymena*: KITAMURA, SUGAI & KITAMURA 223

Inositol 1,4,5-trisphosphate
stimulates actin polymerization in *Dictyostelium discoideum*: EUROPE-FINNER & NEWELL 41
Ionic strength
decreasing, induces surface contraction of dividing newt eggs: KUBOTA 143

Karyotype analysis
in study of synaptonemal complexes of *Caenorhabditis elegans*: GOLDSTEIN 119

Lattice contraction
collagen, by peritubular cells of rat testes: EHRLICH, BORLAND, MUFFLY & HALL 281

Membrane fusion
common antigenic site, role in recognition: BOLWELL 187
Metabolic inhibitors
action on actin cytoskeleton of quail embryo fibroblasts: SVITKINA, NEYFAKH & BERSHADSKY 235
Mitosis
in early *Drosophila* embryos, nuclear antigens: FRASCH, GLOVER & SAUMWEBER 155

Neutrophyl leucocytes
human, signal transduction: HASTON & SHIELDS 249
Nuclear antigens
pathways into daughter nuclei in mitosis in *Drosophila*: FRASCH, GLOVER & SAUMWEBER 155
Nuclear protein
synthesis after stimulation of quiescent 3T3 cells: O'FARRELL & DIXON 173
Nucleolar chromatin
during germination in *Sinapis alba*: DELTOUR, MOSEN & BRONCHART 53
Nucleolar vacuoles
during germination in *Sinapis alba*: DELTOUR, MOSEN & BRONCHART 53

Pellicle
of stigma of *Brassica*, cytochemistry: GAUDE & DUMAS 203
Peritubular cells
from rat testes contract collagen lattice: EHRLICH, BORLAND, MUFFLY & HALL 281
Petunia hybrida
stylar peroxidase and incompatibility: CARRARO, LOMBARDO & GEROLA 1
pH
lowering, induces surface contraction of dividing newt eggs: KUBOTA 143
Phosphorylation
of vinculin, in morphology of Rous sarcoma virus-transformed cells: KELLIE, PATEL, MITCHELL, CRITCHLEY, WIGGLESWORTH & WYKE 129
Placental membrane
of chick, Ca transport: TUAN, CARSON, JOZEFIAK, KNOWLES & SHOTWELL I 73
Plasma membrane
chick embryonic, Ca transport: TUAN, CARSON, JOZEFIAK, KNOWLES & SHOTWELL II 85

Platinum replicas
in study of action of metabolic inhibitors on actin cytoskeleton of quail fibroblasts: SVITKINA, NEYFAKH & BERSHADSKY 235
Polypeptides
of plant and animal endomembranes with a common epitope: BOLWELL 187

Quiescent cells
nuclear protein synthesis after stimulation: O'FARRELL & DIXON 173

Recognition
of common epitope by anti-endomembrane antibody in plants and animals: BOLWELL 187
Rous sarcoma virus
-transformed cells, morphology: KELLIE, PATEL, MITCHELL, CRITCHLEY, WIGGLESWORTH & WYKE 129

Selective growth
of cells with liver-specific traits in rat hepatoma: GOSS 309
Self-incompatibility
in *Tetrahymena* conjugation: KITAMURA, SUGAI & KITAMURA 223
Signal transduction
in human neutrophyl leucocytes: HASTON & SHIELDS 249
Spermatozoa
human, surface glycoproteins: KALLAJOKI, VIRTANEN & SUOMINEN 11
Stigma
surface components in *Brassica*: GAUDE & DUMAS 203
Stylar transmitting tissue
in *Petunia hybrida*: CARRARO, LOMBARDO & GEROLA 1
Subcellular fractionation
in study of Ca transport in embryonic membranes: TUAN, CARSON, JOZEFIAK, KNOWLES & SHOTWELL II 85
Surface contraction
of dividing newt eggs, induction: KUBOTA 143
Surface proteins
of boar sperm increase during maturation in epididymis: SAXENA, SAXENA, HUNT, PETERSON, HENRY & RUSSELL 295
Synaptonemal complex
in *Caenorhabditis elegans*, karyotype analysis: GOLDSTEIN 119

Tetrahymena thermophila
homotypic pair formation during conjugation: KITAMURA, SUGAI & KITAMURA 223
Transplantation
in study of mesoderm–ectoderm interactions during gastrulation: JOHNSON 99
Trypsin
induces surface contraction of dividing newt eggs: KUBOTA 143

Vinculin
phosphorylation in morphology of cells transformed by Rous sarcoma virus: KELLIE, PATEL, MITCHELL, CRITCHLEY, WIGGLESWORTH & WYKE 129

Wall peroxidases
in styles of *Petunia hybrida*: CARRARO, LOMBARDO & GEROLA 1
